Overview

S 021 (12mm, sharp)

Equipment number: 11698017

Description

A professional meat tenderizer with the added functionality of a strip cutter offers unmatched versatility for butcher shops, commercial kitchens, and meat processing facilities. Whether you're tenderizing tough cuts of meat or slicing them into uniform strips, these machines ensure precision, consistency, and efficiency. Built with durable stainless steel and featuring interchangeable attachments, they are ideal for preparing high-quality, tenderized, and uniformly cut meats.
