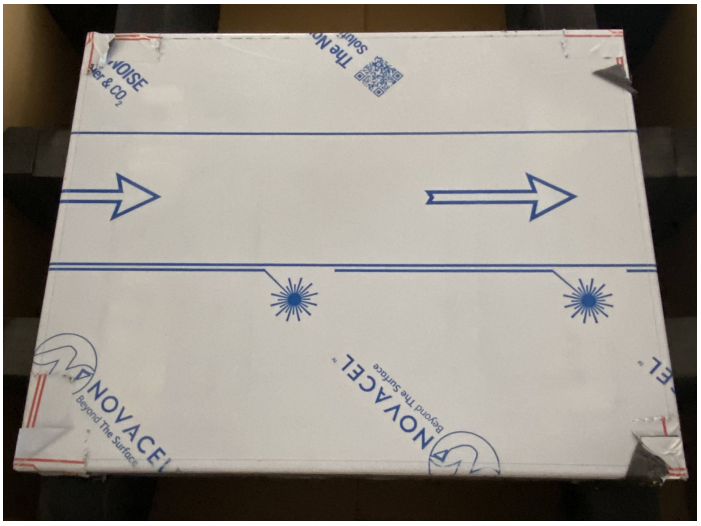
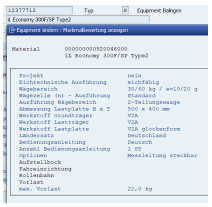
Overview

iL Economy 300 F/SP Type 2

Equipment number: 12377712





Description

The iL Economy 300F/SP Type2 single-point load receptor is suitable for use in dry or wet areas. The dry area version is made of galvanized steel and an aluminium load cell. The model for wet areas uses stainless steel for both the supports and the load cells, offers protection ratings up to IP69 and can therefore withstand extremely harsh environmental conditions. The stainless steel bell bridge, which is visible to the user, is part of both versions.

Product information

Year of construction:	2024
Condition:	Refurbished acc. to Bizerba standard
Surface:	Stainless steel
Model Industry Scale:	Economy
Weighing range industry scale:	30/60 kg
Load plate dimensions:	500mm x 400mm
Location:	Germany
Warranty:	6 month
Material number:	9090834 Industry Scale < 30 kg
