Overview

VS 12 D Ee

Equipment number: 12389580

Description

It is characterized by a wide range of variants. Customized and powerful for a wide range of cutting materials in manual operation. The vertical carriage arrangement ensures an ergonomic, upright operating position with an optimum view of the cutting result. The centerpiece consists of a powerful blade drive. In addition, the VS12 can be equipped with a Ceraclean® surface, which is not only easy to clean, but also ensures that the product to be sliced can be easily fed to the blade.
