

il Economy 300 F/SP TypeBIZERBA

13377711	Typ	Experimentkürzel
1L Economy 3007P Typ2		
1D Experimentkürzel: Mechanikbeurteilung (gesamt)		
Material: 00000000000000000000 1L Economy 3007P Typ2d		
Projekt	kein	
Einfachschleife	einzigartig	
Wegerechnung	30/60 sec / w=10/20 g	
Stabilitäts- / Ausfallung	Flammschutz	
Ausführung Wegberechnung	2-Drehungsweg	
Abmessungen Komplexität	500 x 400 mm	
Werkstoffe Grundstruktur	Werkstoff	
Werkstoffe Komplexität	Werkstoff	
Landeskarte	Deutschland	
Medienangabe	Deutschland	
Anzahl Medienangabe	1, 2	
Ausfallberechnung	Werkstoff	
Fahrerleistung	Werkstoff	
Hollenbahn	Werkstoff	
Werkstoff	Werkstoff	
Max. Vorzeit	22,9 g	

The iL Economy 300F/SP Type2 single-point load receptor is suitable for use in dry or wet areas. The dry area version is made of galvanized steel and an aluminium load cell. The model for wet areas uses stainless steel for both the supports and the load cells, offers protection ratings up to IP69 and can therefore withstand extremely harsh environmental conditions. The stainless steel bell bridge, which is visible to the user, is part of both versions.

Product information

Year of construction:	2024
Condition:	Refurbished acc. to Bizerba standard
Surface:	Stainless steel
Model Industry Scale:	Economy
Weighing range industry scale:	30/60 kg
Load plate dimensions:	500mm x 400mm
Location:	Germany
Warranty:	6 month
Material number:	9090834 Industry Scale < 30 kg
